This miscellaneous report responds to the Request for Additional Information, dated August 13, 2014. The amended June 2014 report, submitted by PepsiCo, Inc. Concerned Citizens Fund (CCF) on July 18, 2014, reflects \$11,085.17 more in contributions than the original report. The software vendor retained by the CCF for preparing FEC reports did not upload contributions relating to a payroll run dated May 30, 2014 prior to the time the June report was prepared and filed. The vendor mistakenly believed the contributions related to a June payroll run. The absence of this May data became apparent when the July report (covering June activity) was prepared. At that point the CCF promptly filed an amended June report reflecting the missing contributions.
